

EUFORMAG

To join EUFORMAG, you have to be a media dedicated to forest sector, and to sign the EUFORMAG agreement.

Any other user may support the EUFORMAG activities :

- informing one's national forest magazines that EUFORMAG exists; and precisising the membership conditions
- pointing out to some eventually interested persons, the available resources in the [articles data base](#), that might be useful in one's country

- requesting EUFORMAG for any publishing operation linked to projects implemented at a European scale, as soon as these projects plan some specific funding for that (EUFORMAG network providing quite an interesting capacity of amplification)
(info@euformag.eu).
